

Instructions to authors:

Cancer Therapy

FREE ACCESS www.cancer-therapy.org

Scope

This journal, bridging various fields is one of the most rapid with free access at www.cancer-therapy.org.

The scope of **Cancer Therapy** is to rapidly publish original and in-depth review articles on cancer embracing all fields from molecular mechanisms to results on clinical trials. Articles (both invited and submitted) review or report novel findings of importance to a general audience in cancer therapy, molecular medicine, gene discovery, and molecular biology with emphasis to molecular mechanisms and clinical applications. The journal will accept papers on all aspects of cancer, at the clinical, preclinical or cell culture stage on chemotherapy and new experimental drugs, gene discovery, cancer immunotherapy, DNA vaccines, use of DNA regulatory elements in gene transfer, cell therapy and drug discovery related to cancer therapy. The authors are encouraged to elaborate on the molecular mechanisms that govern a cancer therapy approach. **To make the publication attractive authors are encouraged to include color figures.**

Type of articles

Both review articles and original research articles will be considered. Original research articles should contain a generous introduction in addition to experimental data. The articles contain information important to a general audience as the volume is addressed to researches outside the field. There is no limit on the length of the articles provided that the subject is interesting to a general audience and covers exhaustively a field. The typical **length of each manuscript** is 12-60 manuscript pages (approximately 4-20 printed pages) plus Figures and Tables.

Free of Charge publication, Complimentary reprints & Subscriptions

There are no charges for color figures or page numbers. Corresponding authors get a one-year free subscription (hard copy) plus 25 reprints free of charge. The free subscription can be renewed for additional years by having one paper per year accepted for publication.

Sections of the manuscript

Each manuscript should have a Title, Authors, Affiliation, Corresponding Author (with Tel, Fax, and E-mail), **Summary**, and **Introduction**; review articles are subdivided into headings I, II, III, etc. (starting with I. Introduction) and subdivided into A, B, C, etc. You can further subdivide into 1, 2, 3, etc. Research articles are divided into Summary; I. Introduction; II. Results; III Discussion; Acknowledgments IV. Materials and Methods

and References. Please include in your text citations the name of authors and year in parenthesis; for three or more authors use: (name of first author et al, with year); for two authors please use both names. Please delete hidden text for references. In the reference list, please, type references with year and Journal in boldface and provide full title of the article such as:

Buschle M, Schmidt W, Berger M, Schaffner G, Kurzbauer R, Killisch I, Tiedemann J-K, Trska B, Kirlappos H, Mechtler K, Schilcher F, Gabler C, and Birnstiel ML (1998) Chemically defined, cell-free cancer vaccines: use of tumor antigen-derived peptides or polyepitope proteins for vaccination. **Gene Ther Mol Biol** 1, 309-321.

Please use Microsoft Word, font “**Times**” (Mac users) or “Times New Roman” (PC users) and insert Greek or other characters using the “**Insert/Symbol**” function in the Microsoft Word rather than simple conversion to font “Symbol”. Please boldface Figure 1, 2, 3 etc. as well as Table 1, 2, etc. throughout the text. Please provide the highest quality of prints of your **Figures**; whenever possible, please provide in addition an electronic version of your figures (optional).

Corresponding authors are kindly requested to provide a color (or black/white) head photo of themselves (preferably 4x5 cm or any size), as we shall include these in the publication.

Submission and reviewing

Peer reviewing is by members of the Editorial Board and external referees. Please suggest 2-3 reviewers providing their electronic addresses, mailing addresses and telephone/fax numbers. Authors are being sent page proofs.

Cancer Therapy (Volume 1, 2003) is published on high quality paper with excellent reproduction of color figures and electronically.

Reviewing is completed within 5-15 days from receiving the manuscript.

Articles accepted without revisions (i.e., review articles) will be published online (www.cancer-therapy.org) in approximately 1 month following submission.

Please submit an electronic version of full text and figures preferably in jpeg format. The electronic version of the figures will be used for the rapid reviewing process. High quality prints or photograph of the figures and the original with one copy should be sent via express mail to the Editorial Office.

Citation in MedLine

Articles accepted for publication by GTMB or Cancer Therapy can be included in MedLine (PubMed) as full articles upon the request of authors provided that the authors have completed their published work under a government grant by NIH (or EU/Japan government grant). If this is your case, please consult the NIH Manuscript Submission System <http://www.nihms.nih.gov/>.

maria@cancer-therapy.org

The free electronic access to articles published in "Cancer Therapy" to a big general audience, the attractive journal title, the speed of the reviewing process, the no-charges for page numbers or color figure reproduction, the 25 complimentary reprints, the rapid electronic publication, the embracing of many fields in cancer, the anticipated high quality in depth reviews and first rate research articles and most important, the eminent members of the Editorial Board being assembled are prognostic factors of a big success for the newly established journal.

Gene Therapy and Molecular Biology (GTMB) is covered in the following Thomson Scientific services:

- ◆ **Science Citation Index Expanded (also known as SciSearch[®])**
- ◆ **Biotechnology Citation Index[®]**
- ◆ **Journals Citation Reports/Science Edition**
